## HARD SKILLS

### **GIT, GITHUB** [HTTPS://GITHUB.COM/DMITRYVERBALOVICH/GIT](https://github.com/dmitryverbalovich/git)

Working with local and remote repositories (creating/deleting a repository, adding/deleting files, creating/deleting branches, merging branches into the main branch), working in Git Bash.

### **TERMINAL LINUX** [HTTPS://GITHUB.COM/DMITRYVERBALOVICH/GIT](https://github.com/dmitryverbalovich/git)

pwd, cd, ls, touch, mkdir, find, rm, mv, cat, more, less, head, tail, cp, sudo !!, curl, date, cal, chmod

### **POSTMAN** [HTTPS://GITHUB.COM/DMITRYVERBALOVICH/POSTMAN](https://github.com/dmitryverbalovich/postman)

Recording the environment, sending GET, POST, PUT, DELETE requests, launching a collection. Writing autotests: checking the response code, checking the json structure, passing values to the environment, passing the response value to body, passing the random response value to the body of another request, checking the correctness of the values in the response.

### **SQL, DBEAVER** [HTTPS://GITHUB.COM/DMITRYVERBALOVICH/SQL](https://github.com/dmitryverbalovich/sql)

SELECT, DISTINCT, UPDATE, INSERT INTO, GROUP BY, LIKE, ORDER BY [DESC], HAVING, EXCEPT, ROUND, JOIN, UNION [ALL]

### **CHARLES, FIDDLER** [HTTPS://GITHUB.COM/DMITRYVERBALOVICH/CHARLES](https://github.com/dmitryverbalovich/charles)

Certificate installation, proxy server configuration, traffic interception and analysis, traffic modification.

### **ANDROID STUDIO, ADB (ANDROID DEBUG BRIDGE)**

[HTTPS://GITHUB.COM/DMITRYVERBALOVICH/MOBILE\\_TESTING\\_ANDROID\\_STUDIO\\_ADB](https://github.com/dmitryverbalovich/mobile_testing_android_studio_adb)

Assembly and launch of the application on the emulator and the real device;

Sniffing traffic from an emulator using Charles;

View logs on the emulator using ADB.

Work via the Git Bash terminal, connecting the device via WiFi, viewing the list of devices, view and output logs to the file, screenshot creation, installation / deletion of applications, restart the device.

### **JMETER** [HTTPS://GITHUB.COM/DMITRYVERBALOVICH/JMETER](https://github.com/dmitryverbalovich/jmeter)

Creating test scenarios, analyzing the results of load testing (number of requests sent, average/minimum/ maximum waiting time for a response from the server, error percentage, throughput, step test).

### **DEVTOOLS (GOOGLE CHROME)**

Viewing element codes, script errors, server requests and responses, emulating a web page on different devices, clearing Cookies

### **CHECKLIST AND BUGREPORT**

[HTTPS://GITHUB.COM/DMITRYVERBALOVICH/CHECKLISTS-AND-BAGREPORTS](https://github.com/dmitryverbalovich/checklists-and-bagreports)

Preparation of test documentation

### **TESTING THEORY**

Types of testing, testing methods, software development and testing lifecycle, documentation and requirements testing, Checklists/test cases, web application testing, mobile testing, bug report, etc

### **LANGUAGES**

English - B1

Russian

Belarusian

## SOFT SKILLS

**ABILITY TO WORK WITH REQUIREMENTS;**

**ABILITY TO WORK WITH DOCUMENTATION;**

**SEARCH AND REGISTRATION OF INCONSISTENCIES;**

**RESPONSIBILITY, PUNCTUALITY, SOCIABILITY;**

**ABILITY TO WORK INDEPENDENTLY AND IN A TEAM;**

**STRIVING FOR SELF-DEVELOPMENT.**

## PROFESSIONAL EXPERIENCE

### **TESTING WEB AND MOBILE APPLICATIONS**

Currency.com and Capital.com as part of the course of Vadim Ksendzov
